

# **IN THIS LECTURE**

- 1. We will not go in depth on any topic as there are many many options and that would not be feasible**
- 2. I intend to introduce you to the concepts and provide some examples**
- 3. You should leave here understanding a breadth of options and understand new concepts**
- 4. I will help you evaluate and pick options if required for your projects**
- 5. I can answer questions based on my own experiences and opinions, but remember these are not the "correct" solution**

# IN THIS LECTURE

1. What is linting? How do I use it?
2. What is semantic analysis?
3. What is CI/CD and how does it work?
4. A look into developer environments
