***COMMERCIAL OR PROFESSIONAL PROCEDURES
THAT ARE ACCEPTED OR PRESCRIBED AS BEING
CORRECT OR MOST EFFECTIVE.***

**THERE ARE SO MANY OPINIONS ON THIS TOPIC THAT
NONE OF THEM ARE RIGHT. THIS LECTURE WILL COVER
SOME PRO-TIPS ON HOW TO NAVIGATE THIS FIELD**

IN THIS LECTURE

- 1. We will not go in depth on any topic as there are many many options and that would not be feasible**
- 2. I intend to introduce you to the concepts and provide some examples**
- 3. You should leave here understanding a breadth of options and understand new concepts**
- 4. I will help you evaluate and pick options if required for your projects**
- 5. I can answer questions based on my own experiences and opinions, but remember these are not the "correct" solution**
