

HOW TO GET TO THE TARGET DESTINATION

The most classic structure of a story contains 6 parts:

1. **Beginning: setting and exposition**
2. **Conflict: a problem**
3. **Rising action: solving a problem**
4. **Highest point: or culmination touching the core of a problem**
5. **Falling action: that leads to solving the problem**
6. **Outcome: how the problem is solved**

OUTCOME: HOW THE PROBLEM IS SOLVED

This is our target destination. Every other part of the story is how we get to this.
